Subject: Quote for Stuart Hall mailboxes and posts

Below are prices for the mailboxes and posts in the Stuart Hall neighborhood. A new steel post that we make (as shown in the drawing) would closely resemble the existing units. The main upright post would be a smooth pipe and not have a fluted surface as the existing posts do. The base would be cast iron, or we could re-use the existing plastic bases if they are not damaged. Prices include materials, fabrication, clean-up, priming, painting (semi-gloss black) and installation.

- New post, box & numbers for new home - \$495.00
- New post, box & numbers for replacement of damaged unit - \$525.00
- Re-use existing plastic base during post replacement - less \$135.00
- New box and vinyl numbers, picked-up (white) - \$36.04
- New box and vinyl numbers, installed (white) - \$56.04

Our lead time for replacement or installation is approximately one to two weeks. Thank you for the opportunity to quote. Please call if you have any questions. Have a great day!
